@SunFoundation

The Sunlight Foundation is a nonpartisan nonprofit founded in 2006 that uses the power of the Internet to catalyze greater government openness and transparency. That's our mission. Our goal is to equip you with the digital tools you need to speak truth about power. We create websites, apps and open data to help you follow the political money trail, understand how government works — and find who's trying to influence how the sausage is made on Capitol Hill and in state capitols.

Influence Explorer (InfluenceExplorer.com) connects the dots of political contributions on the federal and state level allowing you to track influence by lawmaker, company or prominent individual. Run a query on our data going back to 1989 and download it to your computer. Now, you can even track the latest campaign finance filings received by the Federal Election Commission – in real time. **Bulk data download + API**

Track the latest in political fundraising on our new Tumblr ... politicalpartytime.tumblr.com/

Party Time (PoliticalPartyTime.org) documents the political fundraising circuit. From the early morning hours until late at night, there are opportunities for members of Congress, presidential and congressional candidates to meet with supporters behind closed doors, press them for money, and party. And Party Time gives you the opportunity to detect patterns in their fundraising. **Bulk data download + API**

Are you a data geek? Get our APIs or find users for yours ... sunlightfoundation.com/API

Scout (Scout.SunlightFoundation.com) is a rapid notification service that lets you create customized email or text alerts on actions Congress takes on an issue or a specific bill. It also makes it easy to search federal regulations and track bills in all 50 states (a first). Scout helps you track a variety of sources including the Congressional Record, THOMAS, the Federal Register and Sunlight's OpenStates.org to create legislative news searches about issues a person, company or nonprofit cares about. **Customized RSS**
